

AMDEX STRENGTHENS PARTNERSHIP WITH STONY BROOK UNIVERSITY'S COMPUTER SCIENCE DEPARTMENT AND CEWIT

Rochester New York, July 30, 2008-- Amdex is proud to announce the first of many planned charitable donations to Stony Brook University's Computer Science Department and New York State's Center of Excellence In Wireless and Information Technology, (CEWIT). "Over the past two years, Amdex has been working with Stony Brook University's Computer Science Department on the construction and design of a Lobby Video Wall and 3D Immersive Giga Pixel Video Room to be installed in the 100,000 square foot CEWIT building, and... We plan on continuing that relationship," according to Mike Rossi, VP of Amdex.

Amdex has just completed the installation of a custom designed cable system valued at \$8,600.00. This cable system will support a sixteen foot by nine foot video wall that will hang in the lobby of the new CEWIT building. The video wall, built in Rochester, NY, is comprised of nine 70" LCD monitors affixed to a custom high tech, aluminum structure. This structure is capable of supporting as much as 16,070 pounds hanging in mid-air. However, the video wall will actually weigh in at a mere 686 pounds. The Video wall will be the focal point of the Lobby and will certainly act as a technological feature admired by all. The anticipated cost of the aluminum structure and installation to be donated by Amdex is \$26,400.00. Amdex aims to complete the installation by October of 2008.

On another project, Amdex is positioned to donate and install an infrastructure capable of mounting 308 30" LCD monitors that will enable Stony Brook, part of the State University of New York system, to claim the home of the largest 3D immersive video room in the world... (1.25 Giga pixels). This too will be a one-of-a-kind structure, built with a 2 millimeter tolerance between each monitor, and the single largest donation in Amdex's history, valued at \$186,000.

In total, Amdex intends on donating over \$221,000.00 in value to Stony Brook University's Computer Science Department and the CEWIT building by the end of 2008.

About Amdex

Amdex focuses on simplifying cost-conscious solutions and delivering unmatched expertise for all of its Data Center customers. With a portfolio of best-in-class partners, Amdex provides servers, storage and networking infrastructure.
